TARIFF FORMAT

- A. Page Numbering – Page numbers appear in the upper right corner of the page. Pages are numbered sequentially, however, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.

 - B. Page Revision Numbers – Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th Revised Page 14 cancels the 3rd Revised Page 14. Because of various suspension periods, deferrals, etc., the most current page number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the page currently in effect.

 - C. Paragraph Numbering Sequence – There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
 - 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).
 - 2.1.1.A.1.(a).I.(i).(1).

 - D. Check Sheets – When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages.) The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

4.4 Carrier Presubscription

4.4.1 General

Carrier Presubscription is a procedure whereby a Customer designates to the Company the carrier that the Customer wishes to be the carrier of choice for IntraLATA and InterLATA toll calls. Such calls are automatically directed to the designated carrier, without the need to use carrier access codes or additional dialing to direct the call to the designated carrier. Presubscription does not prevent a Customer who has presubscribed to an IntraLATA or InterLATA toll carrier from using carrier access codes or additional dialing to direct calls to an alternative long distance carrier on a per call basis.

4.4.2 Presubscription Options - Customers may select the same carrier or separate carriers for IntraLATA and InterLATA long distance. The following options for long distance Presubscription are available:

- Option A: Customer selects the Company as the presubscribed carrier for IntraLATA and InterLATA toll calls subject to presubscription.
 - Option B: Customer may select the Company as the presubscribed carrier for IntraLATA calls subject to presubscription and some other carrier as the presubscribed carrier for interLATA toll calls subject to presubscription.
 - Option C: Customer may select a carrier other than the Company for IntraLATA toll calls subject to presubscription and the Company for InterLATA toll calls subject to presubscription.
 - Option D: Customer may select the carrier other than the Company for both IntraLATA and InterLATA toll calls subject to presubscription
 - Option E: Customer may select two different carriers, neither being the Company for IntraLATA and InterLATA toll calls. One carrier to be the Customers' primary intraLATA interexchange carrier. The other carrier to be the Customer's primary InterLATA interexchange carrier.
 - Option F: Customer may select a carrier other than the Company for no presubscribed carrier for IntraLATA toll calls subject to presubscription which will require the Customer to dial a carrier access code to route all IntraLATA toll calls to the carrier of choice for each call.

4.4 Carrier Presubscription, (Cont'd.)

4.4.4 Presubscription Procedures

A new Customer will be asked to select intraLATA and interLATA toll carriers at the time the Customer places an order to establish local exchange service with the Company. The Company will process the Customer's order for service. All new Customers' initial requests for intraLATA toll service presubscription shall be provided free of charge.

If a new Customer is unable to make selection at the time the new Customer places an order to establish local exchange service, the Company will read a random listing of all available intraLATA and interLATA carriers to aid the Customer in selection. If selection is still not possible, the Company will inform the Customer that he/she will be given 90 calendar days in which to inform the Company of his/her choice for primary toll carrier(s) free of charge. Until the Customer informs the Company of his/her choice of primary toll carrier, the Customer will not have access to long distance services on a presubscribed basis, but rather will be required to dial a carrier access code to route all toll calls to the carrier(s) of choice. Customers who inform the Company of a choice for toll carrier presubscription within the 90 day period will not be assessed a service charge for the initial Customer request.

Customers of record may initiate a intraLATA or interLATA presubscription change at any time, subject to the charges specified in 4.4.5 below. If a Customer of record inquires of the Company of the carriers available for toll presubscription, the Company will read a random listing of all available intraLATA carriers to aid the Customer in selection.

4.5 Public Telephone Surcharge

In order to recover Company expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all intrastate calls that originate from any pay telephone used to access Company provided services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with service, applies for the use of the instrument used to access Company provided service and is unrelated to the service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (e.g., using the "#" symbol). The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

5.2 Charges Based on Duration of Use

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

Non published information may be released to emergency service providers, to customers who subscribe to Company offerings which require the information to provide service and/ or bill their clients, or, to telephone customers who are billed for calls placed to or from nonpublished numbers and to entities which collect for the billed services. Nonpublished names and/or telephone numbers may also be delivered to customers on a call-by-call basis.

Incoming calls to nonpublished service will be completed by the Company only when the calling party places the call by number. The Company will adhere to this practice not withstanding any claim the calling party may present, except claims of emergencies involving life and death. In such cases, the Company will call the non-published number and request permission to make an immediate connection to the calling party.

6.4.2 Listings, (Cont'd.)

D. Nonlisted Service

Non-listed service means that the Customer's telephone number is not listed in the directory, but does it appear in the Company's Directory Assistance Records.

This service is subject to the rules and regulations for E911 service, where applicable.

The Company will only complete calls to a nonlisted number, if requested by a caller, during the course of a directory assistance call completion service.

When the Company agrees to keep a number unlisted, it does so without any obligation. Except for cases of gross negligence or willful misconduct, the Company is not liable for any damages that might arise from publishing a non-listed number in the directory or disclosing it to some. If, in error, the telephone number is listed in the directory, the Company's only obligation is to credit or refund any monthly charges the Customer paid for nonlisted service.

The subscriber indemnifies (i.e., promises to reimburse the Company for any amount the Company must pay as a result of) and save the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of a non-listed service or the disclosing of said number to any person.

SECTION 8 - SPECIAL ARRANGEMENTS, (CONT'D.)

8.1 Special Construction

8.1.3. Termination Liability

To the extent that there is no other requirement for use by the Company, termination liability may apply for facilities specially constructed at the request of the Customer. The termination liability period is the estimated service life of the facilities provided.

The amount of the maximum termination liability is equal to the estimated amounts for: cost installed of the facilities provided including estimated cost for rearrangements of existing facilities and/or construction of new facilities as appropriate, less net salvage. Costs installed include the costs of: equipment and materials provided or used; engineering, labor, supervision, transportation, and rights of way. Other costs include: license preparation, processing; tariff preparation and processing, cost of removal and restoration, and any other related fees or identifiable costs related to specially constructed or rearranged facilities.

The applicable termination liability method for calculating the unpaid balance of a term obligation is: the sum of the amounts determined as set forth above, multiplied by a factor related to the unexpired period of liability, multiplied by the discount rate of return and contingencies. The amount determined shall be adjusted to reflect the predetermined estimated net salvage, including any reuse of the facilities provided. This product is adjusted to reflect applicable taxes.

8.1.4 Individual Case Basis (ICB) Arrangements

Arrangements will be developed on a case by case basis in response to a bona fide request from a Customer or prospective Customer to develop a competitive bid for a service offered under this tariff. Rates quoted in response to such competitive requests may be different than those specified in this tariff. ICB rates will be offered to the Customer in writing and on a non-discriminatory basis.

If the Company and a Customer enter in an ICB arrangement, the ICB arrangement may provide the Customer or Company with certain rights to terminate the arrangement. If the Customer or the Company exercises such a termination right, then upon the effective date of termination, the ICB rates will no longer apply.
