TARIFF FORMAT

- A. **Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between Page 14 and 15 would be 14.1.
- B. **Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14.
- C. **Paragraph Numbering Sequence** - There are various levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1.1
- D. **Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. An asterisk designates all revisions made in a given filing (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages.) The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

3.5 Collocation

Unless otherwise specified herein, the general regulations specified in Section 2 apply and are in addition to the regulations for collocation specified in this tariff. Rates and charges for the individual collocation arrangements are contained in Section 4.

3.5.1 General

- (A) Collocation provides for access to central office cross connect points that will serve as a point of interconnection for the exchange of traffic with the Company.
- (B) Connection to physical collocation or cageless collocation is available through fiber optic facilities, or leased facilities of a third party.

3.5.2 Forecasting and Forecast Requirements

- (A) Forecast Requests - The Company will request from the Customer, forecasts on a semiannual basis, with each forecast covering a two-year period. The Customer will be required to update the near-term (six month) forecasted application dates. Information requested will include central office, month applications are expected to be sent, requested in-service month, and square footage required. For augments, the Customer may elect to substitute alternative CLLI codes within a LATA for the forecasted demand.
 - (1) If the Company has a written guarantee of reimbursement, it will examine forecasts for offices in which it is necessary to condition space, and discuss these forecasts with Customer to determine the required space to be conditioned.
 - (2) If the Company commits to condition space based on forecasts, Customer will give the Company a non-refundable deposit equal to the application fee.
 - (3) The Company will perform initial reviews of requested central offices forecasted for the next six months to identify potential problem sites.
 - (4) The Company will consider forecasts in staffing decisions.
 - (5) The Company will enter into planning discussions with forecasting Customer to validate forecasts, discuss flexibility in potential trouble areas, and assist in application preparation.

-
- (B) The Company will aggregate data received in Customer forecasts and provide Customer with information which includes the central offices requested, the number of applications for each central office, and any previously known space constraints.
- (C) Unforecasted demand (including augments) will be given a lesser priority than forecasted demand. The Company will make every attempt to meet standard intervals for unforecasted requests. However, if unanticipated requests push demand beyond the Company's capacity limits, the Company will negotiate longer intervals as required (and within reason).
- (D) Interval adjustments will be discussed with the Customer at the time the application is received. In general, if forecasts are received less than two months prior to the application date, the interval start day may be postponed as follows:
- (1) No Forecast Received—Interval start date commences two months after application receipt date.
 - (2) Forecast Received One Month or Less Prior to Application Receipt Date - Interval start date commences two months after application receipt date.
 - (3) Forecast Received Greater than One Month and Less Than Two Months Prior to Application Receipt Date - Interval start date commences one month after application receipt date.
 - (4) Forecast Received Two Months or More Prior to Application Receipt Date - Interval start date commences on the application receipt date.
- (E) The Company will inform all forecasting Customers of the total square footage available and the total number of Customers requesting space in that central office. The Company will offer each Customer an equal share of the central office space, and request applications immediately, with appropriate fees, to reserve the space. The Customers will have one month to respond. If a Customer does not respond within the specified time, its apportioned share will be allocated evenly among those that do respond
- (F) If there is not enough space available to provide all requesting Customers with a minimum configuration (i.e., 25 square feet), a drawing for the space will be held. The Company will inform each Customer of the number of requesting Customers and the quantity of Customers that can be accommodated in the available space. The Company will request applications immediately, with appropriate fees, to enter the drawing. Each Customer will have one month to respond or be ineligible for the drawing. Applications and associated fees will be returned to those not selected in the drawing.

3.5.3 Termination of Arrangement

- (A) The Company shall have the right to terminate a collocation arrangement at any time with respect to any area(s) of the Company central office premises which becomes the subject of a taking by eminent authority having such power. The Company shall notify the Customer of such termination immediately after it receives notice of the taking. The Customer shall have no claim against the Company for any relocation expenses, any part of any award that may be made for such taking or value of any unexpired arrangement that results from a termination by the Company under this provision, or any loss of business from full or partial interruption or interference due to any such termination
- (B) If at anytime the Company reasonably determines that any Customer's facilities or equipment or the installation of the Customer's facilities or equipment does not meet the requirements of these terms and conditions, the Customer will be responsible for the costs associated with the removal or modifications of such facilities to render it compliant. If the Customer fails to correct any non-compliance with these standards within 15 days' written notice, the Company may have the facilities or equipment removed or the condition corrected at the Customer's expense, subject to the collocation dispute resolution procedures.
- (C) If the Company reasonably determines that any Customer's activities, equipment or facilities are unsafe, or are in violation of any applicable fire, environmental, health, safety or other laws or regulations, or pose an immediate threat to the safety of the Company's employees or others or to the Company's network, the Company has the right to immediately stop such activities or the operation of such facilities or equipment without prior notice. The Customer will be charged for any costs incurred as a result of such actions.
- (D) The Company may also discontinue service or cancel an application for the arrangement without incurring any liability for any of the following reasons.
 - (1) Upon non-payment of any sum owing to the Company for more than 30 days beyond the date of rendition of the bill for the arrangement, the Company may, on 30 days advance notice in writing to the Customer without incurring any liability, discontinue the furnishing of a new or existing arrangement, subject to the provisions for dispute resolution.
 - (2) The Company shall be prohibited from furnishing services by order of a court or other government authority having jurisdiction.
 - (3) In the event of fraudulent use of the Company's network, the Company may discontinue the arrangement without notice and/or seek legal recourse to recover all costs involved in enforcement of this provision.

- (E) Grounds for Termination by the Company - The Company reserves the right to inspect the Customer's collocation arrangement to determine if the collocation arrangement is being used for interconnection. If the Company determines that the collocation arrangement is not being used for, the Company reserves the right to terminate the Customer's collocation service upon thirty (30) calendar days notice. If the Company elects to terminate a collocation arrangement pursuant to this section, the termination shall be governed by Section 3.5.3.
- (F) Termination by the Customer - A Customer must notify the Company in writing of its plans to terminate a collocation arrangement ("Customer Termination Notice"), and such Customer termination shall be governed by this Section 3.5.3.

- (1) Termination After Completion If a Customer elects to terminate an existing collocation arrangement after a collocation arrangement has been completed, the termination will be effective thirty (30) calendar days after the Company's receipt of the Customer Termination Notice.

If Customer terminates a collocation arrangement under this section, the termination shall be governed by Section 3.5.3 and the Customer remains responsible to pay any unpaid NRCs associated with the terminated arrangement as set forth in Section 4. If the collocation arrangement being terminated contains equipment in which a third party maintains an ownership or a security interest, the Customer shall include a list of any such owners and secured parties in the Customer Termination Notice.

- (2) Termination Prior to Completion If the Customer elects to terminate a request for collocation when construction is in progress and prior to completion of the collocation arrangement, the termination will be effective upon the Company's receipt of the Customer Termination Notice. Application fees submitted will not be refunded. The Customer Termination Notice must be received by the Company prior to the Scheduled Completion Date to avoid incurring any monthly recurring charges.

-
- (G) Effect of Termination If the Company or Customer terminates a collocation arrangement under this Tariff, the following provisions shall apply:
- (1) Equipment Removal and Monthly Recurring Charges - The Customer shall disconnect and remove its equipment from the designated collocation space by the effective date of the termination. Upon removal by the Customer of all its equipment from the collocation space, if the Customer does not restore the collocation space to its original condition at time of occupancy, the Customer will reimburse the Company for the cost to do so.

Due to physical and technical constraints, removal of the Customer's cables will be at the Company's option. The Company reserves the right to remove the Customer's equipment if the Customer fails to remove and dispose of the equipment by the effective date of the termination. The Customer will be charged the appropriate additional labor charge in Section 4.3 for the removal and disposal of such equipment. All monthly recurring charges will continue to be charged to the Customer until the effective date of the termination or, at the Company's discretion, until any later date, not to exceed 60 days, that all equipment is removed and the collocation space is restored to its original condition at space turnover.

3.5.4 Notices

- (A) Any notices or other communications required or permitted to be given or the terms of this section shall be in hard-copy writing, unless otherwise specifically provided herein. Such notices or communications shall be sufficiently given if delivered personally, or if delivered by prepaid overnight express service, or if delivered by confirmed facsimile transmission and with a copy delivered thereafter either personally, or by prepaid overnight express service, to the Customer's authorized representative.
- (B) Notice shall be given to the Company's Vice President – Regulatory, One South Wacker Drive, Suite 200, Chicago, IL 60606. Facsimile: (312) 346-3276.
- A copy of each notice relating to an action, suit, proceeding or claim is to be sent simultaneously to the Company's General Counsel, One South Wacker Drive, Suite 200, Chicago, IL 60606. Facsimile: (312) 346-3276.
- (C) Either party may unilaterally change its designated representative and/or address for the receipt of notices by giving seven days' prior written notice to the other party in compliance with this section. Any notice or other communication shall be deemed given when received.

3.5.5 Collocation Capacity

- (A) **Company Capacity** - The Company's estimate of its present capacity (i.e., no more than an increase of 15% over the average number of applications received for the preceding three months in a particular geographic area) is based on current staffing and current vendor arrangements. If the forecasts indicate spikes in demand, the Company will attempt to smooth the demand via negotiations with the forecasting Customers. If the Company and the Customer fail to agree to smooth demand, the Company will determine if additional expenditures would be required to satisfy the spikes in demand.
- (B) **Vendor Delays** - No party shall be excused from their obligations due to the acts or omissions of a party's subcontractors, material, person, suppliers or other third persons providing such products or services to such party unless such acts or omissions are the product of a force majeure event, or unless such delay or failure and the consequences thereof are beyond the reasonable control and without the fault or negligence of the party claiming excusable delay or failure to perform.
- (C) **Vendor Capacity** - The Company will continuously seek to improve vendor performance for all central office work, including collocation. Since the vendors require notice in order to meet increases in demand, the Company will share Customer actual and forecasted demand with appropriate vendors, as required, subject to the appropriate confidentiality safeguards.

Customers may also contract with Company approved vendors directly for a variety of the functions required. Customers can contract directly for cage construction, electrical outlets, lighting, ground bar and POT bay installation in their cages.

3.5.6 Implementation of Collocation Charges

- (A) The Company shall provide the Customer with a notice (“Scheduled Completion Notice”) indicating the scheduled completion date (“Scheduled Completion Date”) for the collocation arrangement. The Company shall also provide a notice that will remind the Customer of the Scheduled Completion Date and request the Customer to schedule and attend a “Collocation Acceptance Meeting” (“CAM”). Collocation charges will be implemented in accordance with this section regardless of the readiness of the Customer to utilize the completed collocation arrangement.
- (1) Collection of Non-Recurring Charges - The Customer shall have ten business days from the receipt of a Company provided collocation schedule to pay 50% of the NRCs associated with the ordered collocation service. The balance of the NRCs (“NRC Balance”) will be billed to the Customer upon Customer's acceptance of the collocation arrangement or thirty (30) calendar days after the collocation arrangement is completed, whichever comes first.
 - (2) Commencement of Recurring Charges - Monthly recurring charges will commence upon Customer acceptance of the collocation arrangement or thirty (30) calendar days after the collocation arrangement is completed, whichever comes first (“Commencement Date”), and shall continue until terminated pursuant to Section 3.5.3.
 - (3) Extension Request - A Customer may request to extend or delay the Scheduled Completion Date of a collocation arrangement for up to six (6) months. A Customer electing to extend the Scheduled Completion Date of a collocation arrangement must notify the Company in writing (“Extension Notice”) within thirty (30) calendar days after receiving the Scheduled Completion Notice. In order for the Company to delay billing of monthly recurring charges for the applicable collocation arrangement, the Customer must remit to the Company the NRC Balance for the collocation arrangement with the Extension Notice. Monthly recurring charges will not be billed by the Company until the space for the collocation arrangement is accepted by the Customer or the six (6) month extension period has expired, whichever comes first. At any time during or after the extension period, if the Customer terminates its collocation arrangement, the termination shall be governed by Section 3.5.3.

- (B) If the Company believes the space for the collocation arrangement is needed to satisfy another's Customer's collocation request prior to the end of the six (6) month extension period, the Company will notify the original Customer that its collocation space has been requested by another Customer. The original Customer will have up to five (5) business days after receipt of the notification to retain the collocation space by notifying the Company in writing that it desires to keep the space ("Retention Notice"). If the original Customer retains the collocation space, monthly recurring charges shall commence for the original Customer thirty (30) calendar days after the original Customer sends the Retention Notice or when the original Customer accepts the space, whichever comes first.

3.5.7 Closure, Decommissioning or Sale of Premises

- (A) Collocation arrangements will automatically terminate if the premises in which the collocation space is located is closed, decommissioned or sold and no longer houses the Company's network facilities. At least one hundred eighty (180) days written notice will be given to the Customer of events which may lead to the automatic termination of any such arrangement pursuant to this tariff, except when extraordinary circumstances require a shorter interval. In such cases, the Company will provide notice to the Customer as soon as practicable. The Company will work with the Customer to identify alternate collocation arrangements. The Company will work cooperatively with the Customer to minimize any potential for service interruption resulting from such actions.
